

COMPONENTS

SINGLE PUMP STARTER

FEATURES

The Single Pump Starter controller provides pump control for many different types of commercial, domestic and urban applications.

- > Powder coated steel, lockable IP56 weather resistant enclosure
- > Pump auto / off / manual selection switch
- > Low voltage (24VAC) circuitry for an input switch.
- > Low voltage (24VAC) circuitry for a 'cut out' switch
- > Manually resettable thermal overload device for highest degree of pump protection

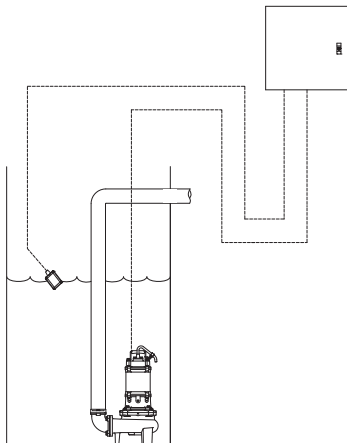

30 YEARS INDUSTRY EXPERIENCE

RANGE	OVERLOAD SIZE (PUMP FLC)	PRODUCT CODE
240V	1.6-2.5A	520475
	2.5 - 4.0A	520476
	4.0 - 6.0A	520477
	5.5-8A	520478
	7.0 - 10A	520479
	9.0 - 13A	520480
	12 - 18A	520481
415V	1.6-2.5A	520483
	2.5 - 4.0A	520484
	4.0 - 6.0A	520485
	5.5-8A	520486
	7.0 - 10A	520487
	9 - 13A	520488
	12 - 18A	520489

TYPICAL ARRANGEMENTS

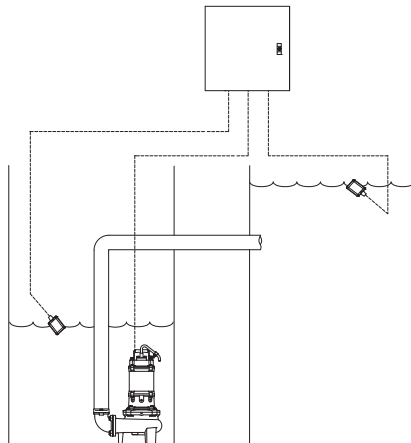

ARRANGEMENT 1: SUBMERSIBLE

OPERATION:
1. START / STOP

ARRANGEMENT 2: SUBMERSIBLE

OPERATION:
1. START / STOP
2. DESTINATION TANK HIGH LEVEL CUT OUT

ARRANGEMENT 1: PRESSURE PUMP

OPERATION:
1. START / STOP
2. SUPPLY TANK LOW LEVEL CUT OUT (OPTIONAL)
3. DESTINATION TANK HIGH LEVEL CUT OUT (OPTIONAL)
