

ULTIMA MINI PACKAGES

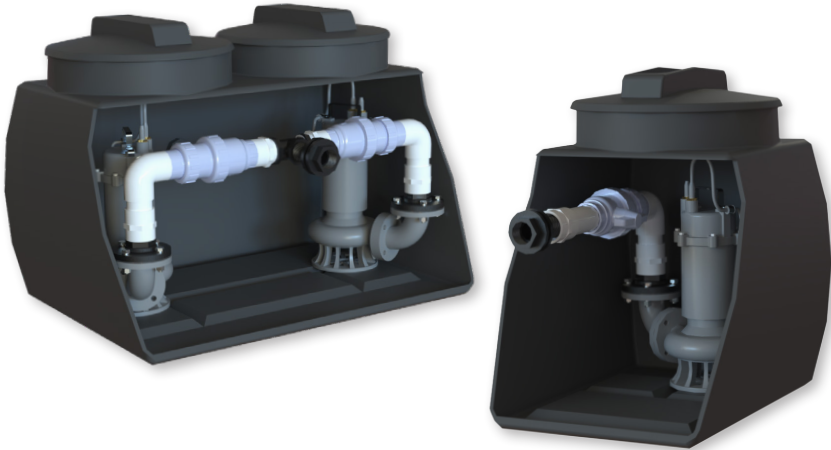

SEWAGE, SULLAGE & DRAINAGE PUMP STATIONS

OVERVIEW

The Ultima Mini Above Ground pump stations have been designed and engineered for small sewer, sullage and other drainage applications in many domestic, urban and commercial applications. All systems are factory set meaning no onsite commissioning is required.

FEATURES

- Compact, lightweight design
- Selection of sewage grinder or drainage type pumps
- Internal pipework and valves
- Control panel or level alarm
- Fully assembled, wiring complete
- 50mm BSP outlet

RANGE

SEWER GRINDER VORTEX PUMP							
STOCK CODE	PUMP	NOMINAL CAPACITY	POWER	CONTROL/ALARM	DIMENSIONS (MM)	VOLUME	INLET/VENT POSITION
800500115	Single	1.6lps @10m	240 volt, 10amp	Monitor Panel with Strobe	750 x 550 x 750H	230 ltr	Roof/100mm
800500117	Duty/Standby	1.6lps @10m	240 volt, 10amp	Dual Pump Control Panel	750 x 1050 x 750H	450 ltr	Roof/100mm

NOTES

1. Can be used for small construction amenities where space is critical.
2. May require regular hosing out to break up solids and paper, particularly in heavy load applications such as construction sites.

SULLAGE/DRAINAGE VORTEX PUMP							
STOCK CODE	PUMP	NOMINAL CAPACITY	POWER	CONTROL/ALARM	DIMENSIONS (MM)	VOLUME	INLET/VENT POSITION
800500114	Single	2lps @10m	240 volt, 10amp	High Level Alarm	750 x 550 x 750H	230 ltr	Roof/100mm
800500116	Duty/Standby	2lps @10m	240 volt, 10amp	Dual Pump Control Panel	750 x 1050 x 750H	450 ltr	Roof/100mm

NOTES

1. For grease interceptor overflow or greasy applications we recommend.
 - Installation of the optional Hylift Odour and Grease dosing to improve reliability and reduce maintenance. Talk to our team.
 - Limit <2,000l FOI/GIT applications where possible.
