

PACKAGED PUMP STATIONS VALVE CHAMBERS

FEATURES

The FRP Valve Chambers enable the servicing and maintenance of the valves without the need for confined space entry into the pump station. This greatly improves safety and reduces ongoing overhead costs.

- > Contains all non return and isolation valves
- > Optional one way valve to redirect any water from valve chamber, back into pump station
- > Australian Patent #2019101107
- > Comply with worksafe confined spaces compliance code 2018-03 Sections 45, 46, 48 & 49.

INTEGRAL VALVE CHAMBER:

- > Bolt-on integration with pit for easy installation

30 YEARS INDUSTRY EXPERIENCE

RANGE
