ALL PURPOSE PUMPS™

HYLIFT®

UNDERSINK SULLAGE PUMPS

HYLIFT®

UNMATCHED PERFORMANCE & RELIABILITY

The All Purpose Pumps HYLIFT range of undersink sullage pumps provides a reliable and efficient solution for domestic and commercial wastewater applications. Compact in design and easy to install, each unit is supplied fully assembled and ready for connection to a standard electrical outlet.

WaterMark certified, the HYLIFT range offers greater installation flexibility, allowing discharge pipework to be routed without the need for continuous gravity fall. This makes it ideal for applications where conventional drainage is impractical.

Equipped with a heavy-duty pump, the HYLIFT range delivers dependable performance and exceptionally quiet operation, providing an effective and practical solution for a wide range of wastewater requirements.

TYPICAL APPLICATIONS

- Restaurants
- Hotels
- Schools
- Office Amenities
- Cleaners Sinks
- Medical Surgeries
- Laboratories
- Domestic Extensions
- Renovations
- Kiosks

Note: Anywhere gravity discharge is infeasible

COMBINED ODOUR FILTER & ANTIFLOOD VALVE

MOUNTABLE HIGH-LEVEL ALARM

HEAVY DUTY STAINLESS STEEL CONSTRUCTION

HYLIFT 40 - WITH HIGH-LEVEL ALARM

HYLIFT 70 - STANDARD BUILD

CUSTOM BUILD HYLIFT UNIT

STANDARD SYSTEM FEATURES

01 **STAINLESS STEEL CONSTRUCTION**
Engineered for durability, with high-temperature and corrosion-resistant options available to ensure reliable performance and extended service life.

02 **HEAVY DUTY PUMP**
Engineered for powerful performance, it efficiently handles small solids and fibres while delivering the pumping capacity required for high heads and extended discharge pipe runs without the need for continuous gravity fall.

03 **SMART DESIGN**
Compact in design and supplied fully assembled, with all connections positioned on one face to maximise space efficiency and simplify installation.

04 **PRE-WIRED AND TESTED**
Supplied pre-wired and tested, with a 2-metre power cable and standard 240V, 10A three-pin plug for easy connection to a standard power outlet, simplifying installation and minimising the need for additional trades.

05 **COMBINED ODOUR FILTER & ANTIFLOOD VALVE**
Featuring an industry-leading integrated filtration system that effectively eliminates odours and removes the need for additional vent pipework, simplifying installation.

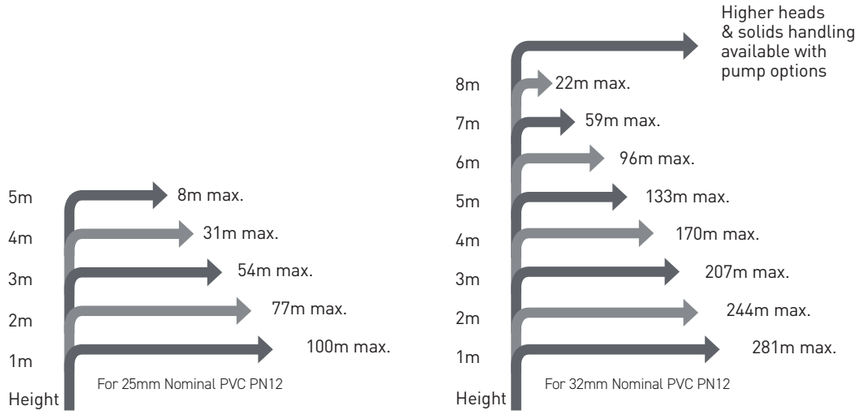

06 **HIGH LEVEL ALARM**
Provides audible and visual high-level alarms for early warning of potential issues, with a voltage-free contact for Building Management System (BMS) integration, supplied as standard on the HYLIFT 70.

TECHNICAL DATA

HYLIFT 40	
Pump	HYFLOW Commercial HD32
Maximum solids size	15mm
Maximum head	7.2 metres
Built in carbon filter	Standard
Electrical Supply	Standard 10amp GPO
Audible high level alarm	Optional

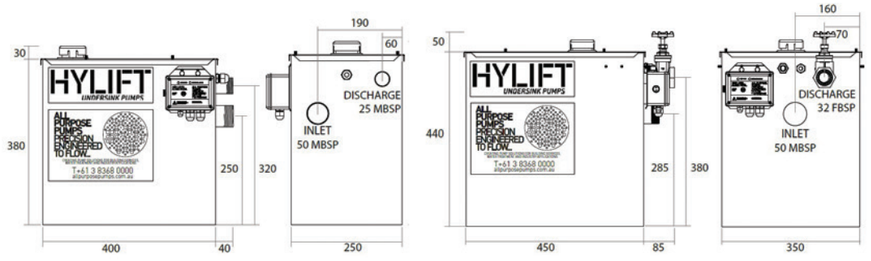

HYLIFT 70	
Pump	HYFLOW Submersible HV04
Maximum solids size	25mm
Maximum head	9.2 metres
Built in carbon filter	Standard
Electrical Supply	Standard 10amp GPO
Audible high level alarm	Optional

COMBINED HEAD HEIGHT AND PIPE RUN LENGTH GUIDE

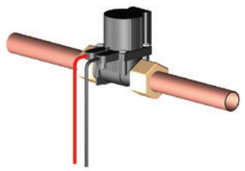

NOTE: PUMP LINES DO NOT NEED TO RUN ON GRADE WITH THE HYLIFT RANGE

OVERALL DIMENSIONS (MM)

FLOOD PROTECTION DEVICES

WATER SUPPLY INTERLOCK KIT

Shuts off water supply in the event of a high level warning or pump failure.

DISHWASHER INTERLOCK KIT

Turns off the dishwasher or other appliance in the event of high level warning or pump failure.

COMBINED DISHWASHER AND WATER SUPPLY INTERLOCK KIT

Combines both safety options in one unit. Kits with multiple power and solenoid options are available on request.

AUDIBLE HIGH LEVEL ALARM

Standard on the HYLIFT 70, optional on the HYLIFT 40, this unit provides an audible and visual high level warning, includes a Voltage Free (BMS) signal output.

ADDITIONAL OPTIONS

- Full 316 stainless steel construction for aggressive chemicals
- Extreme high temperate resistance
- Interlock kits for large commercial washing machines
- Interlock kits for multiple dishwashers
- Increased performance for higher discharge heads and pumping distances

BECOME PART OF THE TEAM

A SUCCESSFUL PARTNERSHIP

WHY YOU WILL BENEFIT WORKING WITH ALL PURPOSE PUMPS

At All Purpose Pumps, our commitment extends well beyond the supply of equipment. We work closely with our clients throughout every stage of their project, providing expert guidance and technical support from initial design and system selection through to manufacture, timely delivery, installation support and commissioning.

Our ongoing service and preventative maintenance programs help ensure continued system reliability and long-term performance. By choosing All Purpose Pumps, you gain more than a pumping solution; you establish a trusted partnership built on technical expertise, dependable service and ongoing support.

OUR KEY BENEFITS:

- Over 35 Years Industry Experience
- Proven experience in understanding unique system requirements
- Advanced and innovative solutions for the toughest applications
- Technical support and field service for peace of mind
- On site commissioning, matching system performance to actual site demands
- Best practice build and stringent factory testing for quality outcomes
- Fast turnaround times
